New York, Aug. 5.-After a reactionary opening to-day, with price declines in the Standard Oil specialties particularly noteworthy, some traders got the idea that the Standard Oil party was coming to the support of the market. The men at 26 Broadway, it was argued, could not afford took the fine imposed by Judge Landis seriously.

Men affiliated with the Standard Oil party were reported as unanimously of the opinion that the fine would be modified or set aside by the higher court; therefore, traders argued, they could not display confidence in the opinion if they were to let prices go off under it. The argument sounded like hot weather reasoning, but while it was rife in the morning the market scored the best rally of the day. In the afternoon, and especiall in the late trading, little was heard of it except on occasional sarcastic reference On the curb, Standard Oil stock close anchanged from Saturday at 500. GRAIN AND PROVISIONS.

Quotations furnished by A. O. Brown & Co., mem rs of the New York Stock Exchange and the nicago Board of Trade, Munsey Building. Chicago, Aug. 5.—With the exception of a brief rly period when world's statistics and coarse grain trength helped the market, wheat showed heaviness III day. The Northwest led the weakness and furished much of the cause of it. The spring wheat
ppears to be coming through in fair shape; no
anger of rust, while frost has for the moment
seen set to the rear, temperatures warming up.
lomestic statistics were bearish. Wet weather in
he winter wheat belt premises to curtail marketngs, but the estimate of 476 cars as to-morrow's
rrivals here discounted this prediction. Local cash
ales, 25,600 bushels. Total export sales, including
8 loads durum, 43 loads.

leads durum, 43 leads.

Corn made a better showing relatively than any her grain on the list; an easy start was in symthy with wheat, and on the fine rains over the n belt. Later private reports have been so senmal and so uniform that they have stimulated in buying. This buying has been of a good o, Country sales of old corn were a little larger, shipping trade was fair. Cash sales locally, 5,000; scaboard sales, 7 loads.

ices were higher, shorts were coming in, longs re unloading, and cash interests were putting ling pressure on the distant months. Country dling pressure on the distant months. Country coeptances were fair, but by no means as large as expected following such a bulge. Shipping sales ere hampered by the wild fluctuations. Prices roke sharply from the early high level. COTTON MARKET. Quotations furnished by Miller & Co., members of

the New York Stock and Cotton exchanges and the New Orleans Cotton Exchange, 1333 F street north-New York, Aug. 5.-Whether Texas will or will not have rain shortly is now the most important estion. Its absence to-day, except at half a dozen soints, helped to sustain the market. Prices ruled rregular, with the tendency, as a rule, slightly imroyed. Nobody ventured to sell much, lest the rain should come, and fear that it might come stood in the way of much buying. Some Texas accounts depicted the situation there as less promising, notably that of a prominent Georgia weather statistician. This had a little effect on sentiment. The movement of new cotton is small, and this also helps the bull side. It has been known for weeks that the crop is late, and yet the decreased movement compared with previous seasons has the effect of attracting the buyers in a small way for quick turns. We believe the situation warrants profit-taking on small bulges. Not enough lamerants profit-taking on small bulges. Not enough compared to the previous safe. They may appear later on and lead to large buying, but there is not enough lamentation from the South to entiuse the bulls beyond periodical shows of strength, followed by schacks, with little net results in their favor. Liverpool's resumption of business to-morrow may make the situation clearer. Liverpool due 6½ to 7 we iould come, and fear that it might come stood in
